

# Evangelism Style Self-Assessment Instructions

On the first page you will find 42 descriptive statements that you will need to score using the scale on the second page.

Please read each statement, and then rate yourself using either a 3, 2, 1, or 0 and putting it in the square on the second page that corresponds to the number of the statement you just read.

Then when finished, total your scores for each column on the bottom line with squares designated A, B, C, D, E, F.

Once you get your column totals, place the letter of the top three scores next to the Highest score, Second Highest Score, Third Highest Score lines below the scoring grid.

Below these lines you will find the titles of the styles corresponding to the letters. At the workshop on Sunday, we will explain the characteristics of each of these styles.

This will enable you to understand how God has uniquely wired you to connect with lost people and then share the gospel with them in an authentic way.
